Your family has decided to get a new pet. Everyone has decided that it will need a unique name.

1. Using the letters from your name and one of your friends’ names, rearrange them to come up with a name for this new family pet. (This pet may be any type of animal)

   Don’t forget to discuss with your family the possible names you have come up with.

2. Illustrate what your new pet looks like and label with its new name.

   Bring this illustration to school to share with your class.
