PEOPLE MUST HAVE CASH

Your task
You need to develop an argument for a debate about the statement ‘People must have cash’.

You will need
10 people to survey (friends, family or community members)
Access to the Internet

What to do
1. Prepare at least five survey questions to collect information to support or refute the statement ‘People must have cash’. Record your survey questions in the space provided. Questions could include:

   - What alternatives would you choose if they were available?
   - When do you use cash?
   - What other payment methods do you regularly use?
   - What are some of the dangers associated with using only cash?
   - Do you think that we need to still be using cash to pay for goods and services?
   - Why do you use cash?

2. Survey at least 10 friends, family or community members. Record the information in a table and attach it to this sheet.
3. Use the Internet to research alternative methods of payment. Make notes about your findings in the space below.
4. Use your research to write a brief argument for and against the statement. Attach your argument to this sheet.
5. Decide which argument is stronger and present it in the class debate.
